

Paragon Partition Manager 10 X86 X64 Setup Free

The screenshot displays the Paragon Hard Disk Manager 15 Premium application window. The main interface is in Russian, showing a menu bar with options like 'Главная', 'Резервное копирование и восстановление', 'Операции с разделами', 'Копирование и миграция', 'Архивы', 'Планировщик', and 'Файловый менеджер'. Below the menu is a toolbar with various icons for backup, recovery, and disk management. The left sidebar shows a 'Карта дисков' (Disk Map) with a selected 'Базовый GPT жесткий диск 0 (VMI)' containing a 'Восстановить' (Restore) partition of 300 MB NTFS. The main area is a 'Редактировать настройки' (Edit Settings) dialog box titled 'Настройки Hot Processing'. This dialog has a checked option 'Включить Hot Processing' and a dropdown menu set to 'Microsoft Volume Shadow Copy Service'. Below this, there are radio buttons for 'Всегда использовать технологию Hot Processing' and 'Использовать Hot Processing, если раздел заблокирован' (selected). There are also input fields for 'Количество попыток запуска VSS' (set to 3) and 'Время ожидания между попытками (в секундах)' (set to 120). At the bottom of the dialog are 'OK' and 'Отмена' (Cancel) buttons. In the background, a 'Список дисков и разделов' (Disk and Partition List) is visible, showing a 'Восстановить' partition with GUID 'D521B912-9016-4EEF-8FE0-2FAC4C722557' and size '300 MB'. The bottom right corner shows a 'Windows-Program' watermark and a 'Нет изменений.' (No changes) status.
